Terry – I believe this is the language that Sam was referring to. Please see Carrie's email below.

Hi Michael,

Is this the language that TCEQ is looking for? It's on the 7th page of LDEQ's proposed submittal in the attached pdf.

"As the energy industry evolves, LDEQ continues to work with EGUs throughout Louisiana to evaluate the operation of utilities. As such, LDEQ will engage in discussions with Entergy about any potential changes in

usage or emission rates at the Nelson facility. Any such changes will be considered for reasonable progress for future planning periods as appropriate."

Please forward to anyone else. I'm not sure who all was on the call.

Thanks,

Carrie K. Thomas
